

G-SAFE

Meet G-SAFE.

Fail-Safe FireWire 800 Storage Solutions

G-SAFE™ from G-Tech is the first truly plug and play disk storage solution designed to protect your stuff (documents, MP3s, digital photos, video, etc.) G-SAFE is equipped with a hardware RAID 1 controller that automatically mirrors your data to two drives simultaneously providing the ultimate in data protection and peace of mind. Should a disk failure occur in G-SAFE, your valuable data remains safe and accessible. Swapping out a failed drive in G-SAFE is very simple and results in automatic resumption of fail-safe operation. G-SAFE sports a high-speed FireWire 800 interface for fast data transfers and is available in storage capacities up to 500 GB. Keep your stuff safe...Get G-SAFE!

- G-FEATURES**
- Full-time automatic protection of your data
