Meet **G|SPEED FC / XL**

High-Performance, SAN-Ready Storage Solutions for SD and HD

G-SPEED FC is the perfect solution for multi-stream, multi-user SD and uncompressed HD work flows - including real-time playback of 2K DPX sequences. G-SPEED FC features 4Gbit Fibre Channel connectivity and is available in a compact desktop enclosure with 6 drives (G-SPEED FC) and dual channel, 2U or 3U rackmount enclosures (G-SPEED FC XL12/XL16) with 12 or 16 drives. G-SPEED FC's built-in RAID controller can be configured as RAID 0, 1, 3, 5 or 6 via the front LCD panel or the easy to use web GUI. G-SPEED FC is "SAN Ready" and is an affordable and simple way to deploy a fail-safe SAN or add additional high performance RAID storage to existing XSan2, FibreJet or metaSAN networks. G-SPEED FC was designed to support the latest and greatest professional video editing equipment from AJA, Avid, Blackmagic Design, Matrox and more.

- Hot-swappable disk drive modules with useable storage capacities up to 9TB (G-SPEED), 18TB (G-SPEED XL12) and 24TB (G-SPEED XL16)
- High-Speed, SAN-ready 4GbitFibre Channel interface
- Supports RAID levels 0, 1, 3, 5, 6 & JBOD
Features 7200 RPM SATA II disk drives each with up to 32MB cache
- RAID controller features 256MB cache (512MB on G-SPEED XL, upgradeable to 2GB)
- RAID management tools via Browser-based GUI or built-in LCD Panel
- Standard 3-year factory warranty
