We enable content-creators to capture & tell their stories.

At G-Technology, we design some of the highest-performing, reliable, and leading-edge storage solutions for end-to-end creative workflows. Which empowers creative professionals to capture their stories and bring their moments of inspired creativity to life.

Through every touch point of the creative process, we are there helping to keep things moving forward. From capture and ingest...transport and transfer...to editing and final production.

With an ever-expanding portfolio of external drives and accessories to fulfill creative content requirements, it’s no wonder creative professionals all around the globe rely on G-Technology branded storage solutions.

ev Series = Evolution Series. | * Used in extreme “enterprise” environments such as multimedia computer systems, server applications, and high storage arrays. | ** Available in Thunderbolt and USB-C versions.
Streamline your digital media and entertainment workflows with the G-RACK 12 line of high-performance NAS – the centralized storage solution that uses state-of-the-art hardware and software to provide a turnkey, fully-operational server that’s ready to use on your network.

The trusted name in video production drives is now the new name in high-quality, high-performance centralized storage.
High-Performance, Centralized Storage for Media and Entertainment Workflows

Performance: up to 2000MB/s
Capacities: 48TB, 72TB, 96TB, 120TB

5-Year Limited Warranty

MAC  WIN  NAS  7200RPM

12-Bay Enterprise-Class Expansion Chassis

5-Year Limited Warranty
Capacities: 48TB, 72TB, 96TB, 120TB

MAC  WIN  NAS  7200RPM
DEMANDING WORKFLOWS?
NO PROBLEM.

Engineered to run fast, quiet, and around the clock, our portfolio of studio-ready storage solutions were designed with one purpose in mind – to meet the workflow needs of today’s most demanding and productive creatives.

These next-generation, high-throughput solutions utilize high-capacity, high-performance Enterprise-class hard drives that can be user-configured into a wide range of RAID options weighted toward speed or additional data protection.
Configurable in RAID 0, 1, 5, 6, 10, 50, and JBOD

MAC | WIN | THUNDERBOLT 3 | HARDWARE RAID | 7200RPM

5-Year Limited Warranty
Performance: up to 2000MB/s
Capacities: 32TB, 48TB, 64TB, 80TB, 96TB

Capacities: 12TB, 16TB, 24TB, 32TB
THEY’RE THE NATURAL SELECTION.

Data management and the creative process are constantly evolving, and our aim is to constantly evolve – and expand – as they do. That’s what you get with our Evolution Series storage solutions.

Our ev Series gear can go from on-set or in-the-field to the studio and back. They’re flexible, reliable, and cross-functional, designed exclusively for all types of workflows.
Now configurable with 2 ev Series Bay Adapters to easily swap Evolution Series-compatible drives.

“I get the best hard drives out there, G-Technology, as they are the most reliable. I couldn’t say that about other manufacturers.”

“No other company in the storage industry can match G-Technology drives. These are the most reliable and durable performers, bar none.”
TOP 10 REASONS TO INVEST IN G-TECHNOLOGY STORAGE

1. Offers enhanced performance and reliability
2. Integrated hard drive cooling technology
3. Stylish product designs
4. Multiple solutions built with Enterprise-class hard drives designed for 24/7 environments
5. Features high-performance hard disk drives
6. Designed for creative content pros and suited for everyone
7. Optimized for business-class data throughput
8. Comprehensive solutions ideal for 4K, HDR and other demanding content formats
9. Plug and play on Mac OS®; easily reformatted for Windows®
10. Ideally suited for unique and evolving workflows

“Photography is my focus, yet more and more I am getting into video. So I need super-reliable, high-capacity, freaking-fast drives for my workflows. I know what works for me, and that’s why I am sticking with G-Technology.”

Dixie Dixon
Lifestyle, Fashion & Advertising Photographer
One terabyte (TB) is equal to one trillion bytes when referring to hard drive capacity. Accessible capacity will vary depending on the operating environment and formatting.

G-TEAM members are leaders in their respective fields who use G-Technology products in their day-to-day work lives. G-TEAM members are compensated for their participation.
